# Program Review Alumni Survey

The purpose of this survey is to invite you to provide feedback on Thompson Rivers University's [insert program name] program. Your feedback will inform improvements to educational programming.

This survey will take you roughly 10 - 12 minutes to complete. Your responses will be shared with program faculty and administration, staff within the Office of Quality Assurance, as well as external peer reviewers from outside the university. Please note that while responses will be aggregated and not attributed to any one individual, the content of your comments will be provided to those listed above.

**Note**: We are conducting a program review, not an assessment of individual faculty members. While your honest feedback is important to the review, please refrain from commenting, either positively or negatively, on individual faculty/staff members. Thank you.

If you have any questions regarding this survey, please email Dr. Alana Hoare, Associate Director, Academic Planning and Continuous Quality Improvement, at <a href="mailto:ahoare@tru.ca">ahoare@tru.ca</a>

#### **DEMOGRAPHIC INFORMATION**

1. Please share information about your identity that you feel impacted your experience within the program (e.g., gender identity, sexual orientation, racial/ethnic identity, disability, or any other meaningful way in which you self-identify)?

	<ul> <li>I am (please specify).</li> <li>My identity did not impact my educational experience.</li> <li>Prefer not to disclose.</li> </ul>	Why are we asking this question? TRU and this program value inclusion and diversity. TRU has identified closing achievement gaps as part of its vision to provide a place of belonging for all learners. In order to better understand the communities that TRU and this program serves, and assess our progress towards diversity, equity, and inclusion goals, we ask that you please provide some information about yourself.
		What will we do with this information? Please note that this information will be kept confidential and will not be part of your student record. This information will be reported in aggregate to ensure individuals are not identified. Personal information that you provide to the university and this program is at all times protected in accordance with the Freedom of Information and Protection of Privacy Act.
		How will gathering this information benefit you?  Depending on what year you are in the program you may not see an immediate impact, but the information you share could positively impact future students. The goal is to provide a supportive, learner-centred curriculum in which students see themselves represented within program.

The sequence of courses in the program was logical.						

effectively prepared me for more difficult courses.  The program provided a sufficient range of courses.  I had opportunities to evaluate the program.  I saw my feedback inform improvements to the courses and/or program.  Faculty members were available for consultation outside of class time.  Faculty members provided me with useful feedback on my academic performance.  Evaluations of my work were fair, constructive, and timely.  Textbooks and learning materials were appropriate for the program.  The knowledge, skills, and confidence I acquired adequately prepared me to continue my studies and/or enter the job market.  Faculty members consistently provided clear explanations of difficult concepts.  I had access to experiential, hands-on learning opportunities (e.g., community service, co-op, internship, practicum)  The program supported my personal, professional, and intellectual growth.
