

## Program Review: Action Plan

**Insert Program Name**

**Instructions:** Consider all of the data gathered during the program review process (i.e., self-study report, external reviewer report and recommendations and commendations, survey results, consultations with community and industry partners, and internal consultations). Identify goals for improvement of the program over the next seven years. Detail the specific steps that will be taken to advance these goals including key milestones, measurable outcomes, and people responsible for the change effort. Depending on the results of the program review, you may find that one or two areas require greater attention than others. Please add/remove rows to each section, as needed. It is recommended to select six (6) to eight (8) goals to focus improvement efforts in the coming years.
